
APPENDIX B: ONTARIO GOVERNMENT
NOTICES

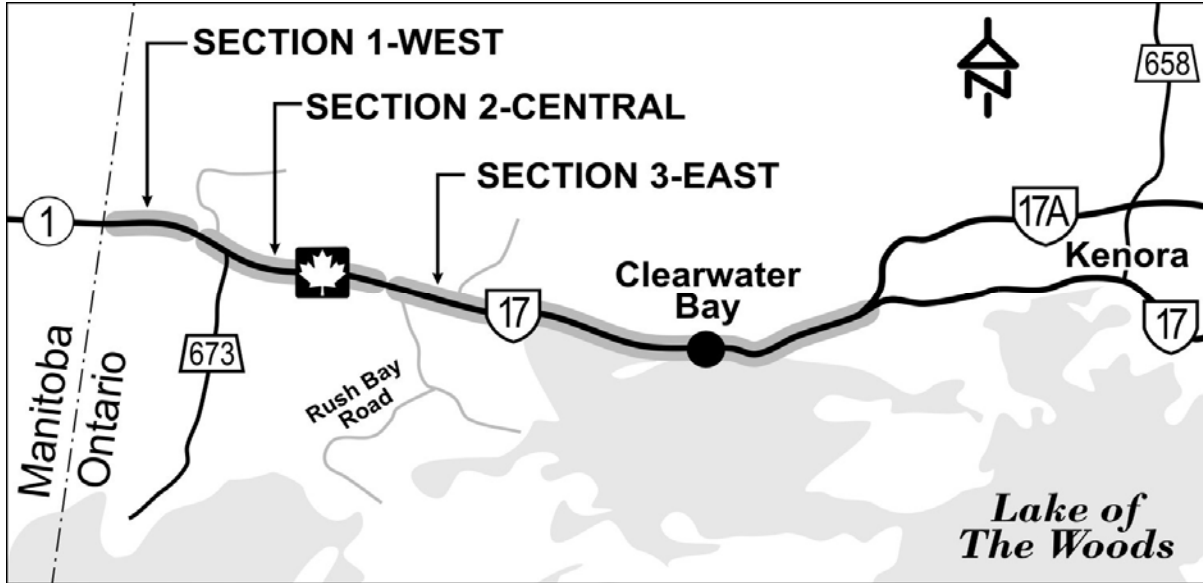

HIGHWAY 17 FOUR-LANING NOTICE OF STUDY COMMENCEMENT PUBLIC INFORMATION CENTRE

Four-Laning between the Manitoba / Ontario Border and Kenora

ROUTE PLANNING AND PRELIMINARY DESIGN STUDY

THE STUDY

The Ontario Ministry of Transportation (MTO) has initiated a study for the four-laning of Highway 17 within the District of Kenora, as shown in the key plan and described below. The firm of McCormick Rankin Corporation (MRC) will undertake this project on behalf of MTO.

The study is being carried out to identify and protect a preferred corridor for a four-lane divided highway. The study is comprised of the following three sections:

Section #1: Between the Manitoba / Ontario Border and Gundy Lake Road

Section #2: Between Gundy Lake Road and Rush Bay Road

Section #3: Between Rush Bay Road and Highway 17A

The study will follow the *Class Environmental Assessment (EA) for Provincial Transportation Facilities* process for Group 'B' projects. Transportation Environmental Study Reports (TESRs) will be prepared separately for each section. Notices will be published when each TESR is completed to explain the public review process and identify the locations where the TESR is available for viewing.

CONSULTATION PROCESS

External agency and public consultation will take place throughout the project to present study findings, including Public Information Centres (PICs). The PICs will provide the public and interest groups an opportunity to discuss the project with members of the project team.

The first PIC has been arranged to provide a study overview for all three sections. The PIC will also include, for Sections 1 and 2, the assessment and evaluation of highway improvement alternatives and the recommended improvements for review and comment. We encourage you to attend this PIC to provide us with your views and comments so they can be addressed as the project progresses. The PIC is scheduled as follows:

Location:	McKenzie Clearwater Fire Hall Junction of Highway 17 West and McConnell Lake Road Clearwater Bay, Ontario
Time:	4:00 p.m. to 8:00 p.m.
Date:	Tuesday, July 28 th , 2009

NOTICE OF SUBMISSION

TRANSPORTATION ENVIRONMENTAL STUDY REPORT

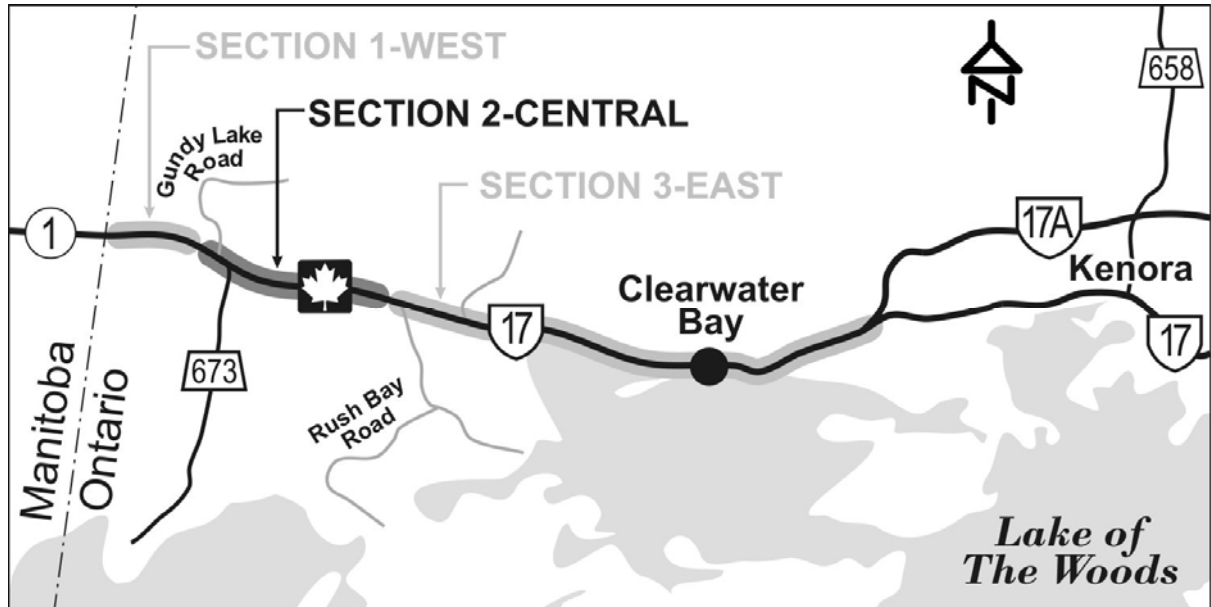

SECTION 2: Between Gundy Lake Road and Rush Bay Road

ROUTE PLANNING AND PRELIMINARY DESIGN STUDY

Four-Laning between the Manitoba / Ontario Border and Kenora

THE STUDY

The Ontario Ministry of Transportation (MTO) is undertaking a study for the four-laning of Highway 17 within the District of Kenora. The study was divided into three sections, as shown below. The firm of McCormick Rankin Corporation (MRC) is undertaking this project on behalf of MTO.

SECTION 2 - TRANSPORTATION ENVIRONMENTAL STUDY REPORT

The study for Section 2, located between Gundy Lake Road and Rush Bay Road, has been completed. The study followed the *Class Environmental Assessment (EA) for Provincial Transportation Facilities* process for Group 'B' projects.

The Transportation Environmental Study Report (TESR) for Section 2 has been completed and is available for a 30 day public review period, at the locations listed below:

Ministry of the Environment
Thunder Bay Regional Office, Suite 331
435 James Street South, 3rd Floor
Thunder Bay, Ontario

The City of Kenora
Municipal Office
1 Main Street S.
Kenora, Ontario

**The Kenora Public Library –
Kenora Branch**
24 Main Street
Kenora, Ontario

**The Kenora Public Library –
Keewatin Branch**
221 Main Street
Kenora, Ontario

The report will also be available on the study website at www.4lanehighway17kenora.ca.

Interested persons are encouraged to review this document and provide comments by **December 10, 2009**. If, after consulting with the Ministry's consultants and staff, you have serious unresolved concerns, you have the right to request that the Minister of the Environment (12th Floor, 135 St. Clair Avenue West, Toronto, Ontario, M4V 1P5) make a Part II Order (i.e. "bump-up") request for this project, thereby requiring an individual environmental assessment. A copy of the Part II Order (i.e. "bump-up") request should be forwarded to the Ministry of Transportation and McCormick Rankin Corporation at the addresses below. If there are no outstanding concerns after **December 10, 2009**, the project will be considered to have met the requirements of the Class EA and the project will proceed to the Detail Design stage.

SECTION 1 AND SECTION 3

A Transportation Environmental Study Report has also been prepared for Section 1, and is available for a 30 day public review period. Please refer to the separate newspaper notice for information regarding Section 1.

The study for Section 3 is currently underway and notices will be published at a later date.
